

Over the years we had the opportunity to tour and donate to Iowa River Hospice and see what an amazing facility it is for our small community. This last year we got to experience first-hand the heart and soul of this local treasure when Clare Mattox received hospice care in her final days. The hometown heroes that make this staff second to none were always there for us. We can't say thank you enough and encourage everyone to choose Iowa River Hospice.

We are especially grateful to have Megan Mann as Clare's case manager/nurse and Sheryl Foster as her hospice aide. They were outstanding. Megan was someone we trusted immediately and gave us such peace of mind already knowing her from church. Her compassion and dedication were comforting to all of us. She went above and beyond to keep in contact with us, provide support and most importantly in the final days coming in immediately when we needed her, even if it was in the night. This kind of service only comes from using our local hospice. Thank you, Megan!

And Sheryl, we so appreciated her working with Clare daily to keep her comfortable and well attended. Her positive attitude was the perfect match for Clare and our family. We were always impressed with Sheryl's attention to detail and keeping us updated on all the changes along the way. The extra mile she went for our family and collaborating with Glenwood Place Assisted Living staff were appreciated. Thank you, Sheryl!

We wanted to share our positive experience with Iowa River Hospice because we know if we don't support local, we won't always be guaranteed these services for our loved ones. The comfort of knowing that the array of services was available to us right here in town made every step less stressful and that Clare was receiving the best care possible. We couldn't ask for more.

The Family of Clare Mattox
